GIZ Albania Monitoring Dashboard

Tracking Development Impact 2023-2025

Loren Radi
April 2025

Overview of GIZ Albania's development impact, tracking key indicators across four megatrends.

OBJECTIVE

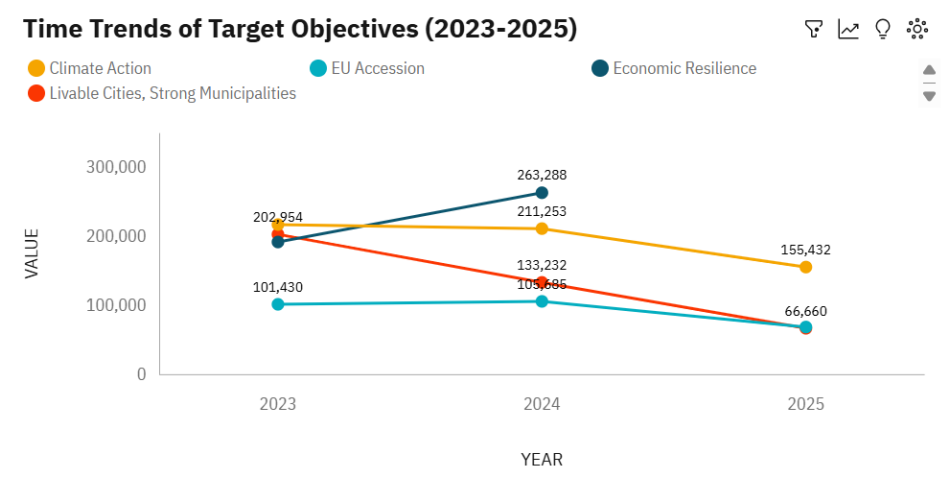
- Provide a real-time overview of GIZ Albania’s development impact.
- Track key indicators across four megatrends.
- Support decision-making through visual insights.

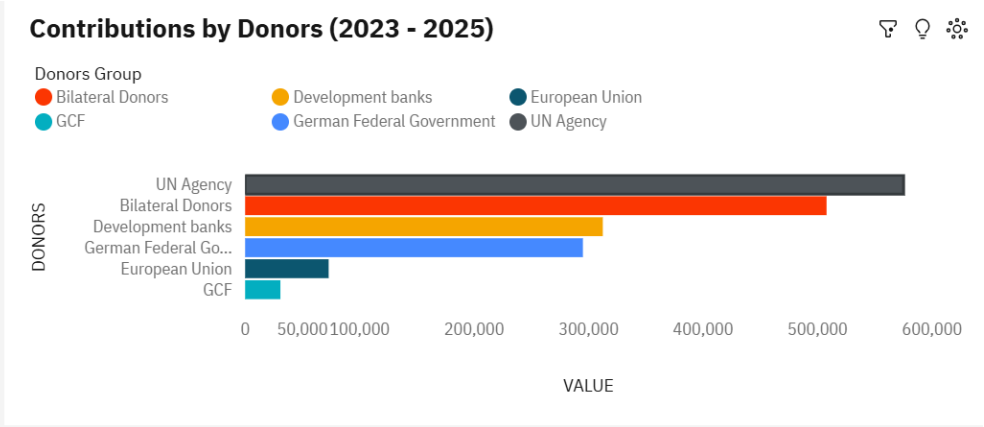
DATA MONITORING APPROACH

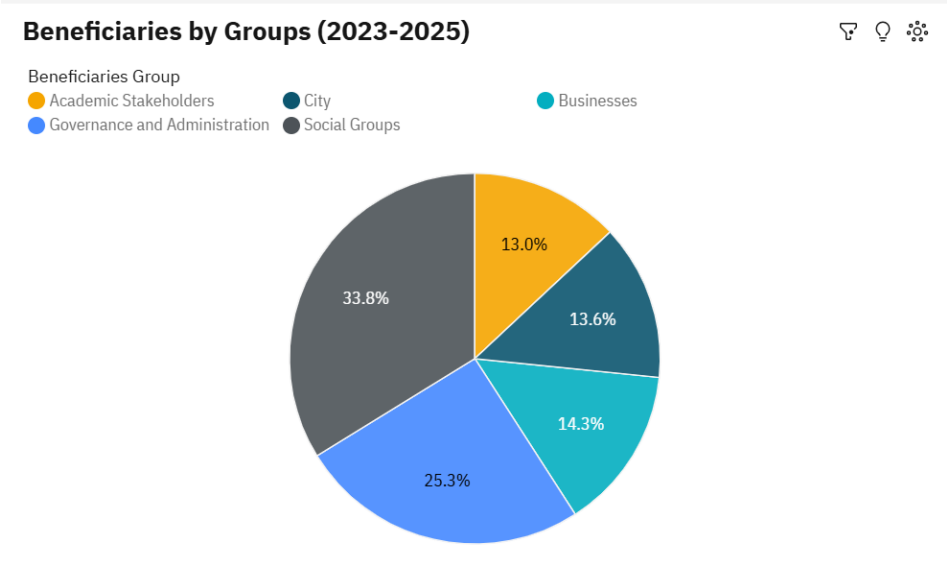
- **Data Flow**: Municipalities, Donors, Beneficiaries, Indicators
- **Data Processing**: ETL, cleaning and structuring with Python
- **Data Visualization**: IBM Cognos Analytics for Dashboards
- **Data Storage**: PostgreSQL or Excel as initial dataset

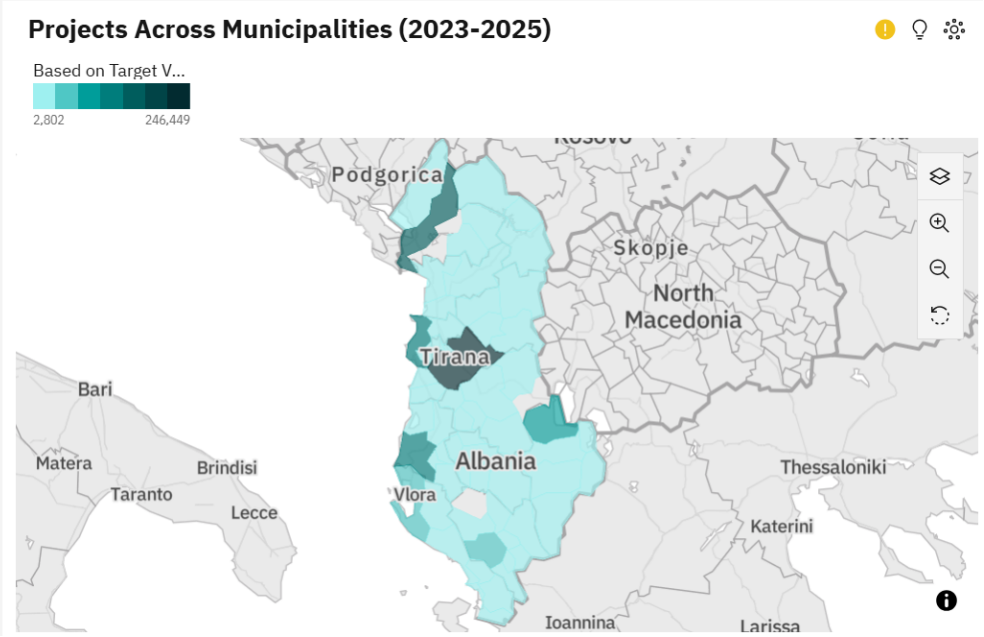
DASHBOARD OVERVIEW

Real-time data view across Megatrends, Donors, Beneficiaries, and Municipalities

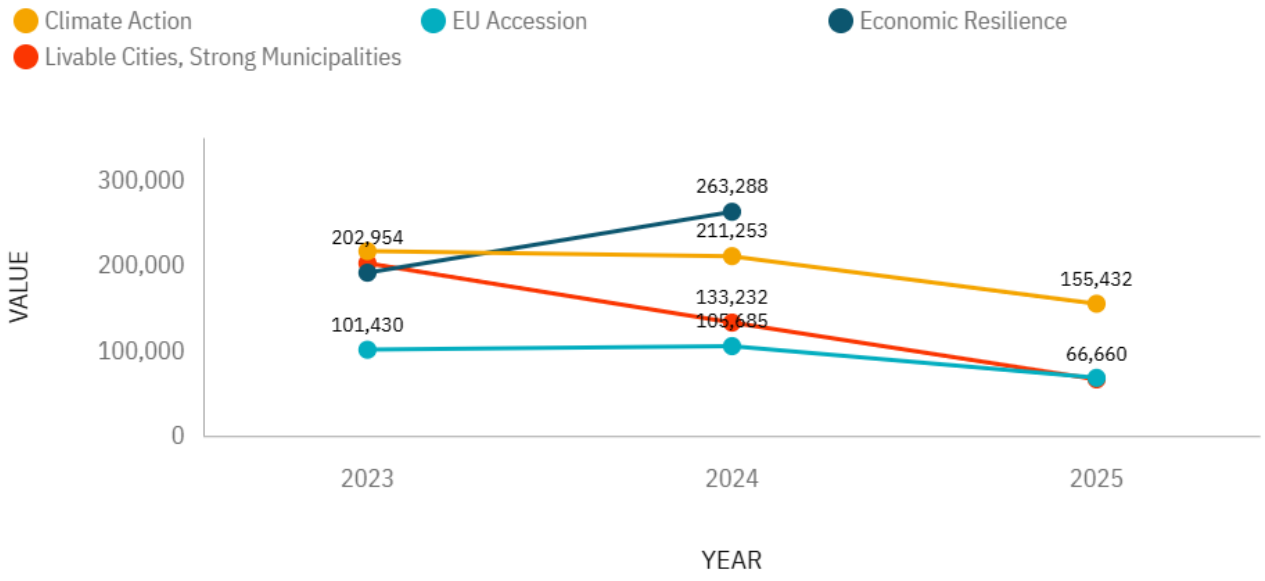






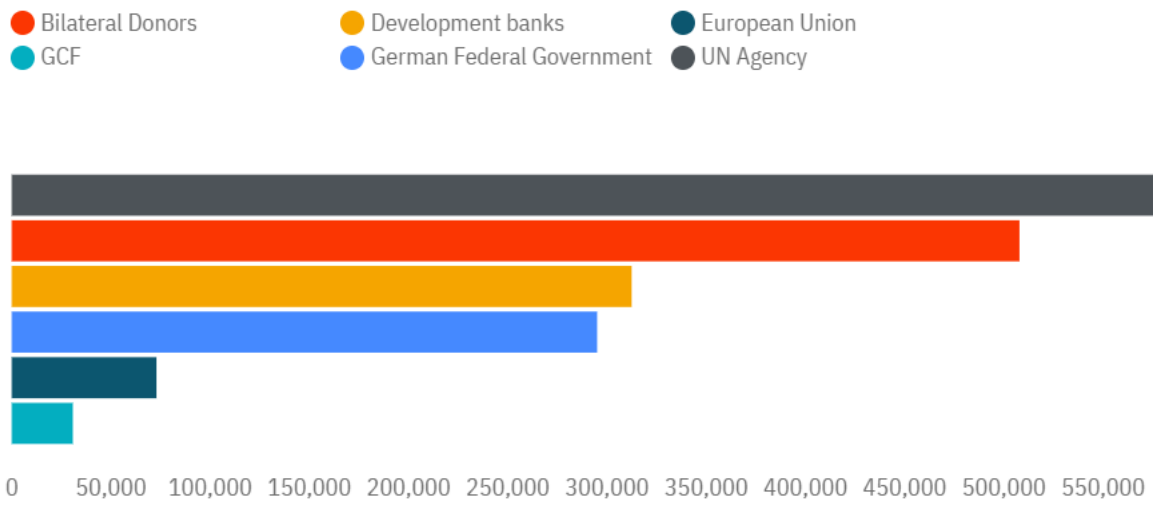


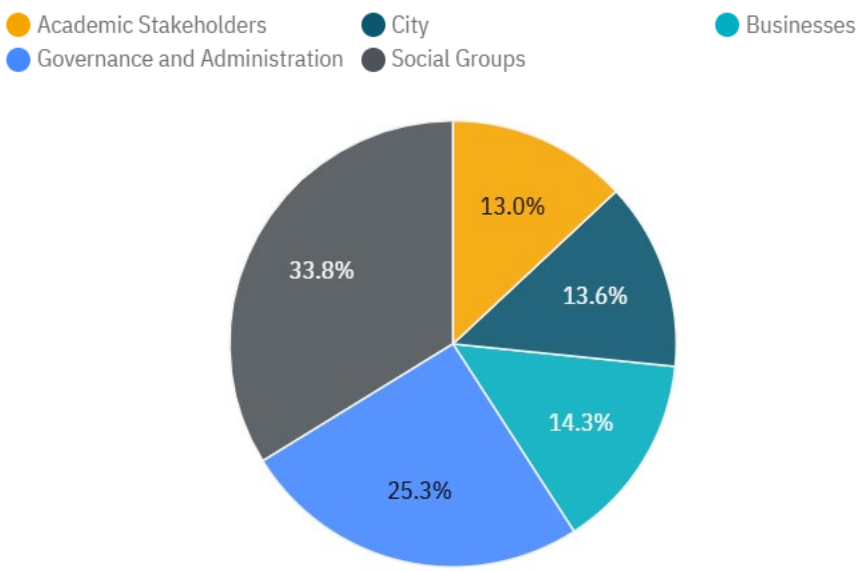
MEGATRENDS ANALYSIS



- Strong growth on **Economic Resilience** between 2023 to 2024.
- **Climate Action** and **EU Accession** experience modest increases between 2023 to 2024, and a significant drop in 2024 – 2025.
- **Livable Cities** continuously decline throughout 2023 – 2025.

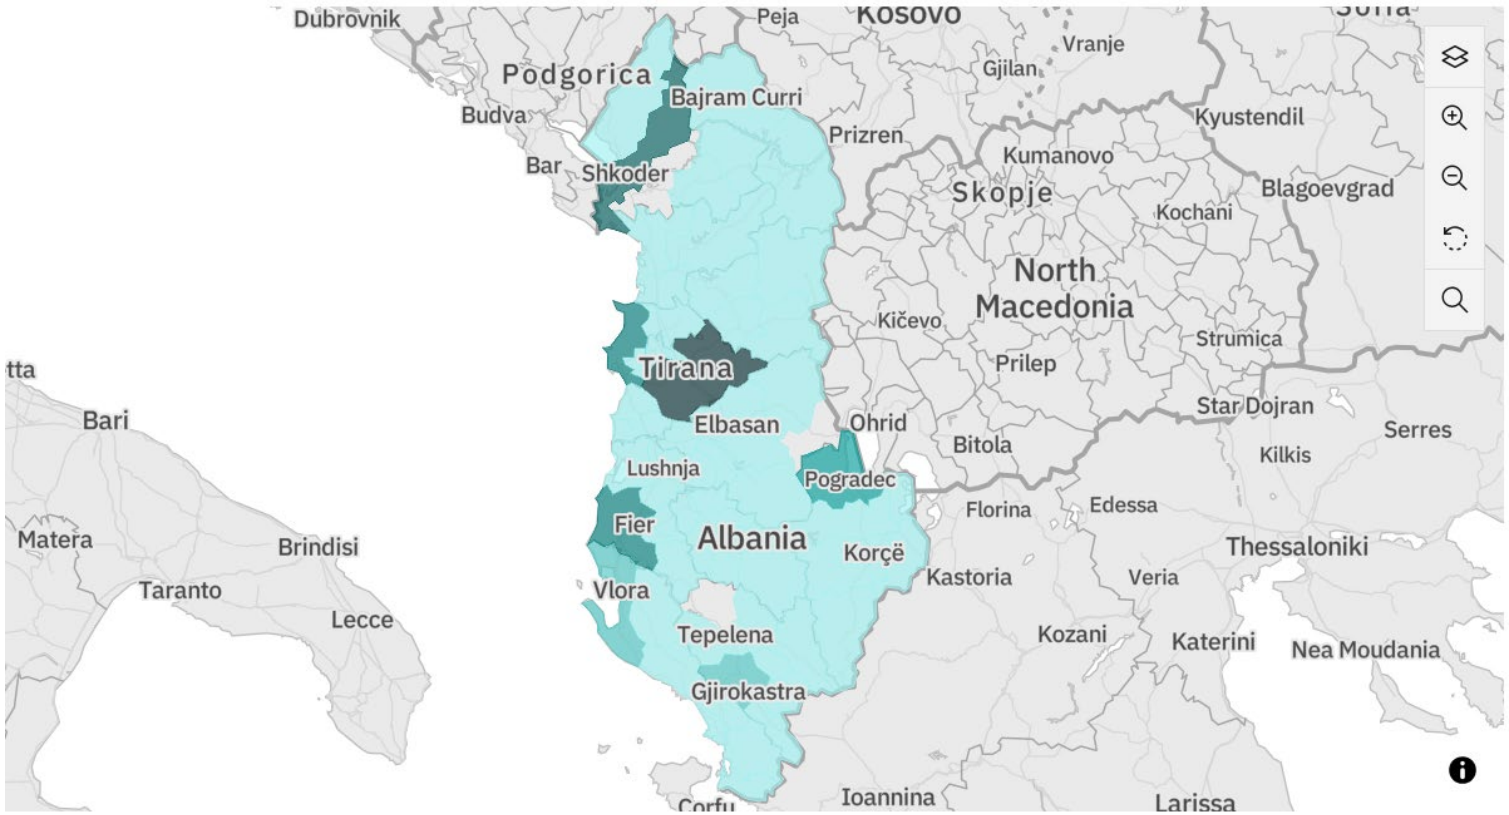
DONOR AND BENEFICIARY IMPACT





- **Donors**: Top contributions from UN Agencies and Bilateral Donors
- **Beneficiary**: Social Groups and Governance Administration

PROJECT MUNICIPALITIES AND CONCLUSIONS



- Highest concentration of projects in Tirana, Shkodër, and Durrës
- Lowest concentration of projects in small municipalities
- Focus remain on urban centers
